

Program Opportunities for Girls Scout Councils, Districts and Troops

From the San Bernardino County Museum

Badge workshops are age-appropriate and interactive. Some workshops cover all the requirements for a badge, while others cover partial requirements. Remaining requirements are easy to complete during Troop meetings, and in some cases, take-home instructions/materials are included to guide Leaders through more activities.

Space and Sky – Two Hours (up to 40 people; longer program as group size increases)
Juniors earn Sky Search badge and **Brownies** earn Space Explorer badge.

Moon, stars, planets – out there and far away! Celestial bodies are (or were) really there, but constellations exist in people's imaginations. Explore constellations from several cultures, and make a tool for finding them! Plus – enjoy a real planetarium experience.

All About Animals – Two Hours

Brownies earn Animals badge; **Juniors** complete partial requirements for Pet Care, Plants and Animals, and Wildlife badges

People love animals, and there are some good reasons why. We'll get up close and personal with some of the Museum's favorites, and explore animal care, behavior and habitats. This workshop focuses on a diversity of animals and human relationships with them.

The Earth We Live On – Two-and-a-half Hours

Juniors, complete partial requirements for Rocks Rock, Science Discovery, and Science In Everyday Life.

From under your feet to the air that we breathe, exploring the earth is science at work. Discover how landforms, rocks, technology and our senses impact our lives. Lively, hands-on format will keep girls rockin'!

Folk Arts in our World – Two Hours
badge

Juniors, earn the Folk Arts

Folk arts are a fun way to visit the past as well as create something that will be treasured by someone in the future. All modern and historical cultures have folk arts, and collecting, making and sharing folk art pieces are good ways to make connections with people close to home and around the world.

Explore Earth – Two Hours

Brownies, complete partial requirements for Earth is Our Home, Eco-Explorer, and Earth and Sky badges.

Girls love to explore the outdoors, and this workshop will give them ample opportunity. Everything from birds to rocks to soil and a “personal terrarium world” will capture their imaginations and invigorate the scientist inside.

Oil Up! – Two Hours

Juniors, earn the Oil Up!

badge

Oil – can’t live without it. Girls will explore the science and careers of oil and oil products. Did you know plastics and many cosmetics are made from oil? There’s more science in store for participants in this hands-on workshop.
